PROFILE

Innovative, creative and professional. Even though i've worked in many areas, i have a good sense for people and work ethics that will make me a solid and reliable worker. I value getting things done and doing great teamwork in the meantime, no matter the hierarchy. I love learning new things a tend to really dive down into the tasks at hand.

WORK EXPERIENCE

Backend/Editor Assistant - Strong Productions

I worked backend with fixing issues with media and our native programs like Avid, Pro tools and hardware.

I assisted the editors when they needed anything.

Eventually ended up editing for a year.

2014/2015

Restaurant Copenhagen Paris - 2 Michelin stars

Worked as a Chef de Partie and was a part of a team of chefs, we managed to gather 2 Michelin Stars and competed in various competitions around the world.

2017-2019

Music Producer/Writer

Worked for major labels in terms of music production, artist handling and implementing innovative ideas in terms of web, social media and hardware with music.

Rabarbergaarden På Slottet - Frederiksborg Castle

Currently co-headchef for a company, where i implemented systems all from the culinary perspective, to IT, social media, infrastructure and framework solutions.

Deep - Dive

- BRIEFLY ABOUT ME -

Starting Out

With a passion for innovation and creativity, I've navigated through a rich tapestry of industries, honing my skills as both a proficient worker and an effective leader. My journey began in my teenage years, building computers and delving into music production, which led me to perform at concerts worldwide and collaborate with renowned artists.

First Steps Ahead

Transitioning into the realm of TV/media production, I immersed myself in backend technologies and software, expanding my expertise to include server management, cloud services, and 3D animation prototyping. Embracing the culinary arts, I pursued excellence in fine culinary craftsmanship, mastering the fusion of creativity, discipline, and technical prowess essential in both artistry and business.

Hard Times, New Opportunities

Amidst the challenges of the pandemic, I seized the opportunity to innovate, crafting business strategies and exploring the world of programming and coding. From Kotlin to JavaScript, CSS, and beyond, I embarked on a journey of continuous learning, channeling my diverse background into projects ranging from film apps to social media platforms for chefs.

End Note

This eclectic blend of experiences has equipped me with a unique skill set, making me a valuable asset for those seeking a dynamic blend of creativity, technical acumen, and entrepreneurial spirit. As I embark on the next chapter of my journey, I am eager to continue evolving and embracing new opportunities for growth and learning.
